☆ 2002 Ural Sidecar Motorcycle - \$4100

(Midland) 

image 1 of 8

2002 Ural Tourist, 750cc, 4 speeds forward + reverse gear. 12,200 kilometers so little less than 8,000 miles. Within the last 1000 miles it has had new rings, gaskets and seals. New Herzog timing gears along with a Nippindenso high out put alternator. Less than 100 miles on new power arc ignition

system. Runs very well. Factory Ural tool kit as well as all spares I have. I have 4 other bikes and although I love this quirky bike I just don't have time to enjoy. Send me an email for questions.

Russia with machines and tooling from the 50's and 60's. Although a 2002 it's somewhat unrefined compared to any other Motorcycle of that production year. This bike loves cruising at 45 to 55 mph where engine harmonics are smooth. Very capable of up to 65 mph it definitely is not happy cruising at that speed. If you are not mechanically inclined I wouldn't recommend this bike to you. If you own a decent set of tools and know how to use them you'll enjoy wrenching, making adjustments as needed to this modern day time capsule.

Videos;

<https://youtu.be/jRcf4NfFWa0>

Possible partial motorcycle trades considered. Like Enduro, European, American.
